VISITORS

The best, most trusted, highly recommended guide in Sri Lanka!

Upul, Kelvin & I can not thank & praise you enough for the 7 night tour that we have just taken. From our first email to today you have been nothing but professional. Your attention to detail & organisational skills are fantastic. Always trying to improve what is already perfect, and help in every way possible. Your memory for facts & figures is stupendous! Any questions we had were always answered fully and in such detail from flora, fauna, culture, statues... the list is endless. We both have got so much out of this trip. Nothing has been too much trouble. From walking up Sigiriya in the pouring rain to driving down jungle dirt tracks (also in the pouring rain) & dark to find our guest house! Also when things didn't go to plan due to terrible weather knocking out electricity in Galle - you were completely fantastic by having everything under control and making the massive drive & finding us accommodation. Your time keeping, van have been excellent. You were even so kind enough to let us borrow rupees until we could get money changed - you really go the extra mile that not many others would. You have a lovely unassuming nature, kind to a fault. You deserve to do so very well. Plus your driving is #1 - we always felt very safe in your hands. So we leave Sri Lanka with very fond and happy memories and that's all credit to you. So until we meet again - ayubowan & es-roothee. With all the very best wishes to you & your family always.

Please do keep in touch

♥ Hayley & Kelvin.
